Authors Guidances

Download

International Journal of Applied Bioresearch (IJAB) ISSN: 2250 – 2033 (Print) and eISSN 2250- 2041 (online) publish in 4 issue of the year (Mont). The scope and aims of the journal is an internationally recognized innovation of scientific bioresearch attracting authors and audiences from academic and industrial communities. Papers offering original and innovative research contributions in original research work either as a Full Research Paper or as a Short Communication. Research Articles without delay in the developing field of Conservation biotechnology, Proteomics, Molecular markers, Plant biotechnology, Medical biotechnology, Aquaculture biotechnology, and Environmental biotechnology.

Guidelines for preparation of manuscript should be following:

The following types of papers are considered by the Editors: Research Articles, Review Articles, and Short Reports. Papers are preferable to be in English. Papers are accepted on the understanding that they have not been published or being submitted for publication elsewhere.

Manuscript Submission info

Submission of manuscript should be electronically submitted to gbtrplink@gmail.com. If the article is accepted for publication, an electronic or final version of the manuscript will be requested. If excerpts from other copyrighted works are included, the author must obtain written permission from copyright owners and credit the source(s) in the article. The manuscript should be following in the order: (1) Title, (2) Abstract, (3) Keywords, (4) Acknowledgements, (6) References, (7) Tables, (8) Figures. The text for research articles should contain the following sections: Introduction, Materials and Methods, Results, Discussion (or Results and Discussion) and Conclusions.

Review of Manuscripts

Upon receipt, a manuscript will be peer-reviewed. The reviewers' relevant comments and the editor's decision will be communicated to the author. A qualified reviewer can be recommended by the authors; however the selection of reviewers will be at the discretion of the Editor. Papers accepted for publication retain the copyright of the Journal.

Title

The title should be on the first page and provide precise information about the contents. Title should not exceed 120 characters (space included) and should be followed by the list of author(s) and affiliation(s).

Corresponding author should be indicated with the postal address, phone and e-mail address.

Abstract and Keywords

Papers must begin with an abstract not exceeding 250 words. It should contain a brief description of the aim, principal results and major conclusions. Informative English keywords are required.

Text

For research article, It should contain Introduction, Materials and Methods, Results, Discussion (or Results and Discussion) and Conclusion sections.

Conclusion sections

The chemical terms must conform to IUPAC rules and the SI units must be used throughout. The specification of materials and equipment must be precise. For experiments involving human or animal subjects, authors must state in the manuscript the approval of the protocol by an institutional or local ethics committee. The Declarations of Helsinki, Tokyo for humans, the European Community and Indian Council of Medical Research guidelines as principles for the use of experimental animals, must be adhered to.

Equations must be consecutively numbered on the right hand side using numbers in parentheses.

Tables

Each table should be titled, typed on separate sheets in consecutive order using Arabic numerals. Indicate SI units of measure in parentheses.

Figures

Figures must be presented on separate sheets in consecutive order using Arabic numerals. The legend should be typed separately from the figures and SI units of measure in parentheses.

The original photograph, chromatogram or drawings are required with the submission.

Due to the technical complications which can arise, please submit in addition black and white prints corresponding to the color figures.

References

Citations of Literature in the text must be following

Yamada, H., Yoshino, M. and Matsumoto, T. 1987. Effects of phytosterols on anti-complementary activity. *Chem. Pharm. Bull.*,35: 4851- 4855.

Edwards SA., 2006. *The Nanotech Pioneers*, Wiley-VCH Verlag, Weinheim, pp. 1-14.

Meltzer, P.S., Kallioniemi, A. and Trent, J.M.2002. Chromosome alterations in human solid tumors. In: B. Vogelstein, and K.W. Kinzler (eds.), *The Basis of Human Cancer*, McGraw-Hill, New York, pp. 93-113.

Aviv, H., Friedman, D., BarIlan, A. and Vered M.1996. Submicron emulsions as ocular drug delivery vehicles, U.S. Patent US 5492811.

Short Reports

The short report section is open to interesting results worthy of publication without requiring extensive introduction and discussion. This section should contain the same heading and subheadings as research articles. The length of the article should not more than 8 pages (A4 words. Tables, figures and references are to be arranged according to research papers.

Review Articles

The organization of review articles can be arranged at the author's discretion. Abstract and keywords are requested. Tables, figures and referen be arranged according to research papers.

Referees

Three experts should be evaluation of the Manuscript.

Correcting Proofs

The editorial office will send the proofs to authors for correction. Only typesetting errors may be corrected; changes in, or additions to, the manuscript will be allowed. The reprints in PDF will be supplied free of charge to the corresponding author. The authors are responsible for the appeared in their published manuscripts.

Charges

Printing & process charges National Rs.5000/- International US\$100/-.
